Mortgage News from Uniform Mortgages Ltd

The first base rate meeting of 2024, interest rates are staying at 5.25%.

We are now seeing mortgage lenders move their interest rates independent of changes to the Bank Of England base rate - Much of this is down to the lender's cost of borrowing and where they see interest rates longer term.

The learning point here is that if you are looking at fixed rate borrowing then don't assume it is all about what the Bank of England do, rates are moving all the time.
